

INDEX-TRIBUNE

SONOMA, JUNE 20, 1916.

CITY OFFICIAL PAPER.

LOCAL HAPPENINGS.

Death of Chas. Gammill.

Charley Gammill, the well-known brakeman on the San Francisco and North Pacific Railway, died in San Francisco last Sunday. He had been sick since last April, when he was stricken with typhoid pneumonia. For weeks he hovered between life and death, but finally so far recovered as to be up and around. His sickness, however, undermined his once vigorous constitution and when he died he was but a shadow of his former self. A few days before he died he went to San Francisco to be treated at Dr. Burke's Sanitarium where he died. On Tuesday A. R. Harrison and Geo. W. Beatty, the father-in-law of deceased, went to San Francisco and brought the remains to Glen Ellen. Charley Gammill was only 31 years of age. He leaves a wife and three little children to fight the battle of life in this cold-hearted world. His remains were taken from Glen Ellen to Santa Rosa on Wednesday for interment in the Beatty burial plot in one of the cemeteries of that city. It is the intention of A. R. Harrison and other kind-hearted citizens of this valley to get up an entertainment for the benefit of the widow and three fatherless children, who have been left almost destitute.

Deputy County Clerks.

In order to facilitate the work of re-registering the voters of Sonoma county, the old register having been cancelled by the board of Supervisors, County Clerk Fulton has appointed the following deputies to register the voters in Sonoma and Vallejo Townships: Lakeville—W. J. Powers and Frank Dowd.

Agua Caliente—M. K. Cady. Glen Ellen—Chas. Poppe and W. S. Staley.

Sonoma—Judge Breitenbach and Robt. Atwood. San Luis—Robt. Howe. Voters should see to it that their names are on the Great Register for 1916, else they will lose their vote at the coming election. It costs nothing to register and all you have to do is to call upon any one of the above deputies and—there you are.

Then and Now.

Among the numerous guests from San Francisco on the occasion of the raising of the Bear Flag was Henry B. Livingston, one of the Pioneer journalists of California. As early as October, 1850, he, in company with the late J. W. Winans, an eminent attorney, started the *Sacramento Index*, the first Whig paper ever published in this State, which had just been admitted into the Union. The present Sonoma INDEX-TRIBUNE has mammoth proportions contrasted with its pioneer predecessor. Forty-six years ago there were but two daily papers printed outside of San Francisco.

Robbery at Agua Caliente.

On Tuesday night last some unknown party broke into the barn on Judge Halstead's place near Agua Caliente and stole a light harness belonging to Wm. Durant, the foreman. The barn which was broken into is quite a distance from the house and the robber had everything his own way, as no one could hear the noise made by him. The work was probably that of some one well acquainted with the place.

Pickpockets.

The nimble-fingered gentry plied their vocation in this town right and left on Bear Flag day. A number of people, who failed to heed the warning given in these columns last week to leave their money at home, were relieved of their watches and other trinkets. A number of purses containing small sums of money were also secured by the crooks.

Warm Weather.

The weather the past week has been excessively warm, the thermometer varying between 90 and 100 degrees in the shade. The warm spell has been favorable to wine grapes and fruits of all kinds.

ALUMINUM. 4-Button Sets, 15c per set. ALUMINUM 6-Button Shirt Waist Sets for 50c per set. Wears better than silver. Magic Toy Spectacles, 10c per pair; a great fun producer. Sure! See? The above are to be had only of F. H. Atwater, Petaluma. Mailed on receipt of price.

DEATH ON THE RAIL.

John Ahern, Formerly of this Place, Crushed to Death.

Johnny Ahern, a brakeman on the Southern Pacific, was killed on Thursday afternoon at Decoto, Alameda county. The unfortunate young man was engaged in coupling cars and was horribly crushed about the hips, and died a short time after the accident from his injuries.

The deceased, who was only 23 years of age, was born on what is now known as the Fair ranch, a few miles south of Sonoma, and was well-known to all old residents. Jas. Ahern of Embarcadero, is the father of deceased and Mrs. L. H. Green (nee Belle Ahern) of this place a sister.

The remains were taken to Petaluma yesterday for interment. The funeral will take place to-day.

Death of Frank H. Vasilit.

Frank H. Vasilit, son of Dr. Vasilit, and who was born in Sonoma thirty-four years ago, died at his home in San Francisco on Friday of last week. For a number of years Mr. Vasilit had held the position of Assistant Librarian of the Academy of Sciences. Two years ago he was one of the party of the academy's expedition to Lower California. While on this trip he did a great deal of work that has been of the highest value to science. His efforts in the preparation of the work of the expedition won for him many words of praise.

Mr. Vasilit had been in ill-health for some time, suffering with a complication of lung and kidney troubles. It was thought that he was on the road to recovery a few weeks ago, as he felt much better than he had for some time, but a few days ago there was a sudden change for the worse and the end came Friday morning. Mr. Vasilit was 34 years of age. His death was a severe blow to a large number of friends. The remains of deceased were brought to Sonoma for interment, and were laid to rest in the family burial plot in Mountain Cemetery, under the auspices of the Odd Fellows and Native Sons, he being a member of both orders.

GLEN ELLEN ITEMS.

Mrs. Brown of San Francisco is a guest at the Chauvet residence.

Several cases were disposed of in the Justice's Court the past week.

Mr. and Mrs. E. A. Smith of San Francisco registered at the Mervyn Wednesday.

A number of Sonoma people attended the picnic here last Wednesday.

Hay making has fairly started and quite a number of our farmers are now engaged in this work.

Jas. A. White and family have returned to Glen Ellen after an extended trip in Southern California.

Capt. H. A. Gorley of San Rafael attended the Bunker Hill celebration in this place last Wednesday.

In consequence of the Bear Flag celebration in Sonoma last Saturday our town presented a deserted appearance.

A flag raising will be held in the Enterprise School District next Friday. The district has one of the finest flag poles in the county.

C. B. Putnam of San Francisco, a descendant of General Putnam of Revolution fame, was a guest at the Mervyn Hotel on Bunker Hill day.

The picnic of the Bunker Hill Association, held last Wednesday, was a fine affair and was largely attended by its members and friends.

Hiram Moses and a party from Sonoma passed through here last Tuesday en route to Fort Bragg, where they will spend a few months of camp life.

THE BEAR FLAG CELEBRATION.

OVER FOUR THOUSAND PEOPLE WITNESS THE PARADE.

The Barbecue and Literary Exercises a Great Success.

The celebration held in this place last Saturday to commemorate the fiftieth anniversary of the raising of the Bear Flag on the Sonoma Plaza attracted nearly 5,000 people to the town.

The parade was participated in by the Native Sons from Santa Rosa and San Francisco, the Pioneers and Mexican War Veterans, delegates from the Grand Parlor of Native Daughters, members of the Grand Army and citizens in carriages. Three bands of music were in the parade, which with its banners, American and Bear flags, was an imposing and inspiring one.

The ceremony of raising the Bear Flag was carried out by Ben. F. Dewell and Henry Beeson, two of the three survivors of the thirty-three who raised the banner of the Bear on that very spot a half century ago. Harvey Porterfield, the other survivor, who was expected to be present, was unable to attend on account of sickness.

Mayor Seipp welcomed those present. H. C. Gesford, Grand President of the N. S. G. W., delivered a neat address, which was followed by music, raising of the Bear Flag, an historical essay by Hon. R. A. Thompson of Santa Rosa and an oration by Merton C. Allen.

At one o'clock the barbecue was announced. Tables had been set up under the trees in the eight-acre Plaza. These were supplied with table cloths, knives, forks, spoons, wooden plates and tin cups. Four thousand people partook of the sumptuous spread and there was enough left over to feed as many more.

After partaking of the spread the visitors amused themselves in various ways. Some made a tour of the town and inspected its many historical buildings. Others wiled away the time in dancing in Union and Weyl halls, while others were entertained by a number of our people who kept open house on that day, notably among these being S. Schocken, Mr. and Mrs. Duhring, Mr. and Cleve and Mr. and Mrs. Granice.

NOTES.

The celebration was one of the most orderly ever held in Sonoma county. There were no drunken men, no fights and only three arrests were made. Two of these were for picking pockets and the other for running a shell game.

President Foster of the S. F. & N. P. Railway, accompanied by his family, attended the celebration. He came up Friday evening in his private car.

L. R. Taft and J. L. Reding, prominent citizens of Nicasio, Marin county, took in Bear Flag Day.

Among our people who were noted in the county papers for their hospitality on Bear Flag day were S. Schocken, C. Aguilon, F. Cleve, Fred'k T. Duhring and editor Granice.

Alfred Larkin, son of the late Thos. O. Larkin, Consul at Monterey at the time of the hoisting of the American flag at that place by Commodore Sloat, attended the fiftieth anniversary of the raising of the Bear Flag. Mr. Larkin is a Native Son, but for many years past has been a resident of New Hampshire.

The Argonauts of 1846 completely eclipsed their brethren of 1849 at our late grand celebration. Of the more prominent pioneers of the days immediately subsequent to the discovery of gold may be mentioned the names of George Metcalf and son, George Jr., W. McPherson Hill, late of Glen Ellen, Judge Dameron and many other citizens of *ye olden days*.

The Executive Committee of the Bear Flag celebration have been hard at work all the week winding up its affairs. All the bills will be paid and a financial statement prepared next week.

Jos. McChristian, John S. Saunders, L. G. Culver, Ed. Walker, Geo. Hammy, Jas. Gregson, T. N. Bennett, Mrs. W. L. Urton and daughter came down from Sebastopol last Saturday.

There will be no morning service at the Methodist Church to-morrow. Sunday School will be held at the usual hour.

Robt. and Will Gilbert of San Francisco with a party of friends drove through the valley Sunday.

Miss Emma Redmond has been visiting Sonoma relatives this week. C. M. Nelson came up from the Bay City Saturday.

Very little change is seen in hair dressing, and the waved and loosely arranged tresses are still the correct thing. The knot is placed high at the back, but not on top of the head, except for evening dress.

The Misses Claves are the guests of Mr. and Mrs. Oliver at Pioneer Grove. Miss Mary Berd Claves is teacher of Greek and Latin in the Berkeley High School.

Mr. and Mrs. John Skinner came up from their home in the metropolis Saturday.

Mrs. Sadie Brown of Santa Rosa visited Sonoma friends this week. Mrs. Brown was formerly a resident of this place.

James and Harry Martin of San Francisco celebrated the raising of the Bear Flag in this place.

Among the visitors at Morning Glory Villa, the press headquarters on Bear Flag Day, were Mrs. Brand, Mrs. Hauser, and Messrs. Williams and Pinkham of the Pioneers and the veteran journalist Henry B. Livingston of San Francisco.

Mrs. E. A. Bagley of Guerneville dropped into our sanctum last Saturday to see the editor. He was absent, however, hustling items in connection with the celebration, and as a reminder of her visit Mrs. Bagley left upon the editorial table a bouquet of wild lilies picked near Guerneville. They were the sweetest and handsomest flowers we have ever seen and ought to be brought under cultivation.

Miss Mary Burke returned to her home in Sonoma last Wednesday.

Miss Maude McGill is now residing on Golden Gate avenue, San Francisco.

One of the most delightful luncheons of the season was that given by Miss Eva Prunty in honor of Miss Genevieve McTaggart of Napa and Miss Tom Smyth of Ukiah. The interior of the handsome home was prettily trimmed for the occasion. At 3 o'clock the guests assembled and after social converse and several fine piano selections by Miss Ora Lawrence, all were invited to the dining room where they sat down to a *la table d'hôte*. Here the principal feature was the game quotations and at intervals the following courses were served: Iced lemonade and cake, tea and sandwiches, Neapolitan ice cream and cake, fruits and nuts. In the game of quotations the most successful was Mabel Lowell, who carried off first prize, a handsome book. The booby prize was awarded to Miss Ora Lawrence. All voted this luncheon one of the most pleasant and unique ever given in this valley.

The following were present: Misses Mabel Lowell, Maude Green, Clara Cheney, Ora Lawrence, Mable Sellers, Mamie Stevenot, Anna Wadsworth, Bessie Knight, Dora Howe, Agnes Duhring, Zelma Johnson, Zarifa Howe, Sadie Cady, Bertha Campbell, Sadie Agnew, Ethel Campbell, Clothilda Walliser, Hilda Lidstrom, Eva Prunty, Kate McDonnell.

Mrs. Rose Bailey and Mrs. Haley of San Francisco were the guests of Miss Eda Gillan last Sunday.

Children's Day (to-morrow) will be observed in the morning at the Congregational Church.

Miss Leo Schiller and Mrs. Nolting of San Francisco were the guests of Mr. and Mrs. Robt. Poppe last Saturday.

B. P. Norris has secured the contract for building the new residence of Fred'k P. Duhring. The site chosen is on the south side of Napa street, opposite the public school house.

Setting Very Much Mixed.

One curious symptom of the over-throw of common sense by science in such a study as domestic economy is the fact that the papers are frequently marked by grotesque misspellings, not merely of scientific terms, but even more especially of common words which in other papers would present no difficulty whatever. This is a mark of the papers of senior schoolgirls, who study the subject of domestic economy as well as of older students, and to such an extent that an examiner is forced to the conclusion that this study is in some occult way a danger to orthography.

To invest in "cousins," to have the finger nails nearly "paired," "poodles" of water, "wispish meat," "roasted stake," to have the drains "flushed" with water and break a class up into "drafts," may be taken as a few examples of this tendency. But scientific terms are by no means safe from variations, as the *App* following quotations, this time from the papers of schoolgirls, will show: "Car bonny chooli" is an unusual yet recognizable form of carbonic acid. "Lack tail tanks" may not be so easily recognized. One might suppose that it referred to a species of waterfowl related in some way to the Manx cat, but it is really intended for lactated ducts. Possibly the functions of these vessels was no less a mystery to the writer than the spelling of their name.—Blackwood's Magazine.

Water S3 a Quart.

In speaking of the Papazo Indians Mr. McGee said: "They inhabit a country of broad plains, with mountain ranges between them. The mountains are remarkably rugged and rise sharply from the lowlands. All over the plains live the Indians. The country is one of the most arid regions on the face of the globe, a whole year passing sometimes without a drop of rain. Geologically it is a curious place. The streams rise in the mountains, but never reach the sea, and the debris carried by the rivers, instead of finding its way to the ocean, is spread upon the plains, the rivers dry up before they reach the sea. Semiland, in the state of Sonora, was never seen by a white man until about two years ago, when the bureau of ethnology sent out an expedition to explore that region. The natives are constantly vigilant every moment, from day to day, week to week, month to month, year to year, expecting and dreading the approach of an enemy. They are always prepared for any emergency. The dearth of water was the greatest obstacle to the exploration. Every drop we used was carried from 12 to 15 miles by men under heavy guard. Water there is more valuable than gold, and often we measured it out in spoonfuls. In counting the dangers and labor of securing water we estimated its worth from \$3 to \$4 a quart."—Baltimore American.

Rapid Reading.

What an inestimable boon it would be if we had the faculty of grasping sentences, paragraphs and perhaps pages at little more than a glance. That they have been men gifted in that way is an undoubted fact. Macaulay possessed that faculty in a remarkable degree, and most editors have it to a lesser extent.

He would take up a volume for an evening's intellectual enjoyment, and before he retired he had the contents fully impressed upon his marvelous mind. Dickens was another of the remarkably rapid readers. George Eliot's "Adam Bede" came to him one day. Before his ordinary bedtime he had read it and pronounced this remarkable dictum, "That book was written by a woman." Others required days of leisure to read it, and the question of authorship was the question of the time in literary circles.

Of a well known lawyer it was once said that he was able to read a newspaper article or a page of a book at what seemed to the observer to be but a glance. Endowed at the same time with a powerful memory, he was enabled to digest at leisure what he had absorbed in haste. Very much the same was said of Daniel Webster, who read "Don Quixote" in a single night.—Strand Magazine.

Just a Coincidence.

"What curious coincidences will sometimes occur," remarked Police Judge Low the other evening. "I was walking along Post street, near Union square, one night recently, when suddenly the bewhiskered face of Judge Campbell came before my mind's eye. I don't know what could have called him to mind, but I was still thinking of him when I saw a parcel on the sidewalk. I picked it up and found it was a sheet of music that some one had dropped. I rolled it and it was confronted with the title, 'And Still His Whiskers Grew.' It struck me as being so ridiculous that I sat on a bench in the square and laughed for half an hour."—San Francisco Post.

Paper Making.

The rags used in the manufacture of paper are first placed in a cylindrical machine, called a thrasher, which shakes them violently in order to separate as far as possible all foreign substances. They are then sorted, according to texture, fiber and color, after which they are placed in machines, which cut or tear them into very fine, short filaments.

Violence.

Violence ever defeats its own ends. Where you cannot drive you can always persuade. A gentle word, a kind look, a good natured smile can work wonders and accomplish miracles. There is a secret pride in every human heart that revolts at tyranny. You may order and drive an individual, but you cannot make him respect you.—Hazzlitt.

A Straight Tip.

Bella—I look best with my hair drawn straight back. I wish it were the mode.

Cora—Wait till you get to heaven, dear. There'll be no parting there.—New York Press.

If you want the very best of wine, liquors or cigars go to the Sonoma House, and you will be politely served by Mr. and Mrs. Stein.

POLLOCK is known as a grand-bred

horse from both sire and dam. He also

has a fine form and is a beautiful dapple

brown in color, black legs and fine mane

and tail. For disposition he cannot be

beat. He is also very stylish and a grand

move, which was proven at the State Fair

last year when he won the stallion walking

match, beating the best record. He is also

winner of Four Prizes at the State Fair

and is the sire of entire colts that won

First Prize at that Fair in 1895.

POLLOCK is now in his best age, and

surely ought to be a good horse to breed

from.
